**Relative humidity:** 0% to 90% non-condensing

**Maximum operating altitude:** 10,000 feet

**Maximum storage altitude:** 15,000 feet

**Maximum shipping altitude:** 35,000 feet

## TROUBLESHOOTING / FAQs

### **USB Devices Are Not Working / MacBook is Not Charging:**

Make sure that both sides of the LandingZone are completely closed and flush against the MacBook Pro. Confirm that the LandingZone Power Adapter is properly plugged into your wall outlet and connected to the LandingZone.

### **How do you Reset the LandingZone?**

You can reset or power-cycle the LandingZone by undocking the MacBook Pro, disconnecting all connected devices and the LandingZone Power Adapter, and allowing the LandingZone to rest for a minute or two. After resting the LandingZone, reconnect the LandingZone Power Adapter, reconnect the devices, and dock the MacBook Pro to the LandingZone.

## **CARE & CLEANING**

Clean with a soft cloth. Do not use water or cleaning solutions to clean the LandingZone.

## **DISPOSAL**

Applicable laws may limit how you can dispose of this product. Accordingly, please make sure you follow your local, state, federal, and country ordinances, laws, regulations, and other guidelines to properly dispose of this product and the accompanying packaging materials.

# WARNINGS

## WARNINGS

- The LandingZone is not designed to charge multiple high-powered devices, such as smartphones or tablets, at the same time.
- Do not dock to the LandingZone if a smartphone or tablet is already connected to the High-Powered Charging Port. Please disconnect any smartphone or tablet before docking and reconnect it after the MacBook has been docked.
- The Mini DisplayPort on the LandingZone uses Type-C Alt Mode and some older Mini DisplayPort Adapters may not be compatible with this new standard.
- The LandingZone is designed to work with the 20.5V power adapter included with the LandingZone. Using a higher voltage power adapter may damage the LandingZone and MacBook.
